REPORT NO.

1. Yugoslav railroad rolling stock is greatly overtaxed, as a result of which various parts of the locomotives frequently break down. According to railroad personnel, the majority of Yugoslav railroads will soon be in a very poor state of repair.
2. An example of the poor condition of Yugoslav locomotives is the case of the failure of the hydraulic brakes of the Belgrade-Zagreb express at the Vin-kovac Station on 20 May 1950.
